SUMMARY

DevOps Engineer & Security Researcher with 2+ years of experience in system hardening, automation, and vulnerability analysis.

EXPERIENCE

DevOps Engineer

infoconcept consulting pvt ltd

May 2023 - Present, Ahmedabad

- Design and maintain CI/CD pipelines with integrated security scanning using Jenkins and GitLab CI.
- Conduct vulnerability assessments and implement security measures in cloud infrastructure .
- Manage AWS and Azure cloud platforms with focus on security best practices.
- Automate infrastructure provisioning and security compliance using Terraform and Ansible.
- Implement container security scanning and orchestration with Docker and Kubernetes.

Support Engineer

Acute Informatics

June 2021 - November 2022, Ahmedabad

- Support Engineer
 - I had been member of Valsad Mahila Nagrik Sahakari bank live Implementation.
 - I had been member of Ratnaafin(NBFC) LMS live Implementation.
 - I have been experienced with the SQL developer.
 - I have worked on SQL,PL/SQL.
-

PROJECT

K6 Load Balancer Testing

infoconcept consulting pvt ltd • github.com/maleksakir/k6-load-test

- Load testing with K6 for private APIs using 50 virtual users.
- Conducted thorough load testing using K6 on private APIs, simulating 50 virtual users, which identified potential bottlenecks and optimized server response times by 25%.

AWX Ansible Automation

infoconcept consulting pvt ltd • github.com/maleksakir/awx-ansible-automation

- Automate server provisioning using Ansible and AWX.
- Integrated AWX with Ansible to automate server provisioning, reducing deployment time by 50% and ensuring consistent configurations across 100+ servers.
- Optimized AWX workflows for Ansible playbooks, facilitating seamless updates and decreasing manual intervention by 70%, while handling deployment across multi-cloud environments.

Vulnerability Scan & Patch

infoconcept consulting pvt ltd • github.com/maleksakir/vuln-scan-patch-poc

- Scan vulnerable Apache server with Nikto and patch using Ansible.
- Administered comprehensive vulnerability scans across 150 servers using Nikto, and successfully automated patch deployment with Ansible, reducing manual intervention by 40%
- Orchestrated a systematic vulnerability management cycle, leading to a 95% reduction in time-to-remediation for critical vulnerabilities, while maintaining server compliance through continuous monitoring.

Container Image Scan

infoconcept consulting pvt ltd • github.com/maleksakir/container-scan-remediate

- Scan and remediate Docker images using Trivy and Ansible in CI/CD pipeline.
 - Integrated automated security scanning solutions using Trivy and Ansible into the CI/CD pipeline, detecting vulnerabilities in Docker images and improving overall security compliance by 40%.
 - Integrated Trivy with Ansible to automate the scanning of Docker images in CI/CD pipelines, achieving a 40% improvement in security compliance through timely detection and remediation of vulnerabilities.
-

EDUCATION

MSC IT(IMS)

Ganpat University • Ahmedabad Gujarat • 2023 • 9.47 CGPA

BSC IT(IMS)

GANPAT UNIVERSITY • Ahmedabad Gujarat • 2021 • 8.47 CGPA

HSC (12th Science)

GHSEB • 2018 • 52.33

SSC

GSEB • 2016 • 77.77

SKILLS

Vulnerability Assessment & Management: Tenable.io, Nessus, OpenVAS, Qualys, Burp Suite

Penetration Testing: Kali Linux, Metasploit, Nmap

SIEM & Security Monitoring: Wazuh, ELK Stack

Cloud Security: AWS Security

Endpoint Security: CrowdStrike,eScan

Programming & Scripting: Python, Bash, PowerShell

Networking & Firewalls: Wireshark, Cisco Security

Cloud & Infrastructure : AWS, Docker, Kubernetes

DevOps Tools: Ansible, Git/Github, Jenkins, Terraform, GitLab

Programming & Scripting : Python, Linux/Shell, Powershell, Ruby

Security Tools: Nikto, Nmap, ZAP

Testing & Monitoring: QA Automation, K6, Grafana, Prometheus, Loki
